

IMPORTANT SAFETY RECALL

This notice applies to your Clek Liing or Liingo Infant Car Seat

NHTSA Recall 21C-006

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

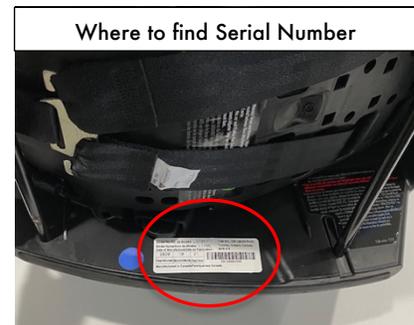

Clek Inc. has decided that a defect which relates to motor vehicle safety exists in Clek Liing and Liingo Infant Car Seats manufactured prior to September 15, 2020.

Clek Liing infant car seat affected:

Model Numbers: LG19U1
Production Dates: 03/27/2019 - 09/14/2020

Clek Liingo infant car seat affected:

Model Numbers: LGO20U1
Production Dates: 05/20/2020 - 09/14/2020

Description of the safety defect:

Clek Inc. has determined that the canopy stay (clear plastic rod that runs through the center of the canopy) can break under extreme load and leave behind a small plastic part, which an infant could put into their mouth posing a potential choking hazard.

There have been no reports of choking or injury.

This issue does NOT affect the ability of the child restraint system to protect the occupant in the event of a motor vehicle crash.

Remedy of the safety defect:

Clek will be voluntarily providing a replacement canopy stay made of a stronger material.

It is safe to use your car seat while waiting to receive a kit to fix the issue. However, Clek strongly recommends checking the existing canopy stay to ensure it is not broken.

Clek will notify all registered owners of affected car seats. This notice will explain the issue and include instructions for how to get a free kit to fix the issue.

Owners of affected car seats who have not registered their car seat, or have moved, can contact Clek at canopynotice@clekinc.com or by telephone at 1(866) 656-2462.
